INDEPENDENT AUDITORS' REPORT

Board of Selectmen
Town of Jay

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Jay, Maine, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Jay, Maine as of June 30, 2014, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 12 and budgetary comparison information on page 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Jay, Maine's basic financial statements. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2014**

(UNAUDITED)

The following management's discussion and analysis of the Town of Jay's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2014. Please read it in conjunction with the Town's financial statements.

Financial Statement Overview

The Town of Jay's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the Town's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regards to the Town's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position – this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities – this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above mentioned financial statements have separate columns for the two different types of town activities. The types of activities presented for the Town of Jay are:

- *Governmental activities* – The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). Most of the Town's basic services are reported in governmental activities, which include general government, public safety, public works, education, insurance, recreation and library and other unclassified.
- *Business-type activities* – These activities are normally intended to recover all or a significant portion of their costs through user fees and/or charges to external users for goods and/or services. These activities for the Town of Jay include the Sewer Fund.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Jay, like other local governments, uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the Town of Jay can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds: Most of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the Town's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the Town.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The Town of Jay presents only two columns in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The Town's major governmental fund is the general fund. All other funds are shown as nonmajor and are combined in the "Nonmajor Funds" column on these statements.

The general fund is the only fund for which the Town legally adopted a budget. The Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Proprietary Funds: The Town of Jay maintains one proprietary fund, the sewer fund. This fund is used to show activities that operate more like those of commercial enterprises. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. No reconciliation is needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements.

Fiduciary Funds: These funds are used to account for resources held for the benefit of parties outside the Town of Jay. These funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the Town's own programs. The accounting used for fiduciary funds are much like that of proprietary funds. They use the accrual basis of accounting.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Statement of Changes in Fiduciary Net Position – Fiduciary Funds.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regards to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund.

Government-Wide Financial Analysis

Our analysis below focuses on net position, and the changes in net position of the Town's governmental and business-type activities. The Town's total net position for governmental activities increased by \$477,105 from \$17.57 million to \$18.05 million. The Town's total net position for business-type activities increased by \$159,405 from \$1.41 million to \$1.57 million.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - increased for governmental activities to a balance of \$9,083,371 at the end of this year. Unrestricted net position for business-type activities increased to a balance of \$520,647.

Revenues and Expenses

Revenues for the Town's governmental activities decreased by .18%, while total expenses decreased by .68%.

Revenues for the Town's business-type activities increased by 2.75%, while total expenses increased by 2.38%.

Financial Analysis of the Town's Fund Statements

Governmental funds: The financial reporting focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the Town's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's financial position at the end of the year, and the net resources available for spending.

Permanent funds:		
Restricted	13,861	15,430
Total Nonmajor Funds	<u>\$ 2,463,507</u>	<u>\$ 2,013,717</u>

The general fund total fund balance decreased by \$36,916 from the prior fiscal year. The non-major fund balances increased by \$449,790 from the prior fiscal year. This increase was due to the excess of transfers in from the general fund that were greater than expenditures net of revenues.

Proprietary funds: The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The sewer fund, a proprietary fund had net position for the current year of \$1,572,914. This was an increase of \$159,405 from the prior year.

Budgetary Highlights

There was no significant difference between the original and final budget for the general fund. Minor differences consist of budget adjustments made by the town resulting from town meeting, adjustments to departments or applied receipts.

The general fund actual revenues were over budget by \$250,169. This was mostly a result of all revenue categories being receipted in excess of budgeted amounts.

The general fund actual expenditures were under budget by \$852,162. All expenditure categories were under budget.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2014, the net book value of capital assets recorded by the Town increased by \$9,505 when compared to the prior year. This increase is the result of capital additions of \$793,040 less current year depreciation expense of \$760,866 and net capital disposals of \$22,669.

Total	<u><u>\$ 10,056,681</u></u>	<u><u>\$ 10,047,176</u></u>

Debt

At June 30, 2014, the Town had \$3.85 million in bonds outstanding versus \$4.60 million last year, a decrease of 16.24%. Other obligations include capital leases payable and accrued vacation and floating holidays. Refer to Note 7 of Notes to Financial Statements for more detailed information.

Economic Factors and Next Year's Budgets and Rates

To further promote and ensure the financial well-being and fiscal stability of the Town, the Jay Board of Selectmen adopted an Unassigned Fund Balance Policy in August of 2012. The Town's management designed the policy around maintaining an appropriate level of Unassigned Fund Balance with the intent to provide a source of funding for unforeseen emergencies, cash flow to offset the need for borrowing in anticipation of tax receipts and evidence to the Town's bond holders and bond rating agencies of financial stability and credit worthiness. Funds may also be used with the approval of a special or annual Town Meeting.

The policy requires that the target balance for unassigned fund balance consist of three tiers:

1. A minimum level of unassigned fund balance level equal to 60-days (or 1/6) of the current year's approved expense appropriation for the municipal budget.
2. A target level of unassigned fund balance equal to 90-days (or 1/4) of the current year's approved expense appropriation for the municipal budget.
3. A maximum level of unassigned fund balance level equal to 90-days (or 1/4) of the current year's approved expense appropriation for the municipal budget.

The policy also includes a provision for the suggested utilization of excess funds as an offset to the budgetary impact on the Town's mil rate or for other valid purposes which benefit the taxpayer including response to emergency funding needs. All uses of excess unassigned fund balance must receive prior Town Meeting approval.

For the fiscal year ended 2014, the Town recognizes that the Balance in Excess of the Maximum Level is approximately \$2,032,000 and has determined that the increased level is reasonable and responsible in light of the fact that a very large portion of the Town's tax base is concentrated in the Androscoggin Mill. The Town also recognizes the current vulnerability of the paper industry and is in legal review of an abatement request by Verso Paper, which includes the potential for a significantly reduced taxable value and a resulting impact on the mil rate in coming years. For this reason, the Town is choosing to maintain the excess balance at this time.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town Finance Dept. at 340 Main Street, Jay, Maine 04239.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Town of Jay was incorporated under the laws of the State of Maine. The Town operates under the selectmen-manager form of government and provides the following services: general government services, public safety, public works, transfer station, education, and recreation.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the Town has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the Town has chosen not to do so.

The Town's combined financial statements include all accounts and all operations of the Town. We have determined that the Town has no component units as described in GASB Statement No. 14 and amended by GASB Statement No. 39.

Government-Wide and Fund Financial Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds).

In the government-wide Statement of Net Position, the governmental activities columns are (a) presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts - invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities.

Both the government-wide and fund financial statements categorize primary activities as governmental. The Town categorizes all activities of the entity as governmental.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions and business-type activities (general government, public safety, etc.). The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The Town does not allocate indirect costs. All costs are charged directly to the corresponding department.

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements & Fund Financial Statements

The financial transactions of the Town are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Town:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

- a. The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- b. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- c. Permanent Funds are used to account for assets held by the Town that are legally restricted pursuant to Title 30-A, §5653 of the Maine State Statutes, as amended, and unless otherwise specified, only earnings, and not principal, may be used for purposes that benefit the Town or its citizenry. The Town's policy for authorizing and spending investment income follows State statutes.

2. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Operating revenues include charges for services, intergovernmental reimbursements and other miscellaneous fees which are a direct result of the proprietary activity. Non-operating revenues are any revenues which are generated outside of the general proprietary activity, i.e. interest income. The following is a description of the proprietary funds of the Town:

- a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) established fees and charges based on a pricing policy designed to recover similar costs.

3. Fiduciary Funds:

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support Town programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds.

The Town's fiduciary funds are presented in the fiduciary fund financial statements by type (private-purpose). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide financial statements. The Town has no component units that are fiduciary in nature.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Non-major funds by category are summarized into a single column, GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Budget

The Town's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

1. Early in the second half of the year the Town prepares a budget for the fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. A meeting of the inhabitants of the Town was called for the purpose of adopting the proposed budget after public notice of the meeting was given.
3. The budget was adopted subsequent to passage by the inhabitants of the Town.
4. The Town does not adopt budgets for Special Revenue Funds.

Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the Town's policy to value investments at fair value. None of the Town's investments are reported at amortized cost. For statement of cash flows purposes, all highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. The Town Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities.
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit unions.
- Repurchase agreements
- Money market mutual funds

Inventories

Inventories of supplies are considered to be expenditures at the time of purchase and are not included in the general fund balance sheet.

Interfund Receivables and Payables

Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances". Interfund balances and transactions have been eliminated in the government-wide financial statements.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

Allowance for Uncollectible Accounts

The allowance for uncollectible accounts is estimated to be \$0 as of June 30, 2014.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals, and signs are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All asset retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. The Town has not retroactively recorded infrastructure.

Estimated useful lives are as follows:

Buildings	20 - 50 years
Infrastructure	50 - 100 years
Machinery and equipment	3 - 50 years
Vehicles	3 - 25 years

Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of bonds payable, capital leases payable and compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary fund is the same in the fund statements as it is in the government-wide statements.

Compensated Absences

The Town's policies regarding paid time off do permit employees to accumulate limited earned but unused leave. The liability for accrued compensated absences is recorded as long-term debt in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. As of June 30, 2014, the Town's liability for compensated absences is \$18,840.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

Revenue Recognition - Property Taxes - Modified Accrual Basis

The Town's property tax for the current year was levied August 26, 2013 on the assessed value listed as of April 1, 2013, for all real and personal property located in the Town. Taxes were due in two installments on October 1, 2013 and April 1, 2014. Interest on unpaid taxes commenced on October 2, 2013 and April 2, 2014, at 7% per annum.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as deferred revenues.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay, and amounted to \$410,996 for the year ended June 30, 2014.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (grant income/expenses).

Operating/Non-operating Proprietary Fund Revenues

Operating revenues consist mainly of direct revenue sources and/or charges for services applicable to that fund.

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The Town does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the Town's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

TOWN OF JAY, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 2 - DEPOSITS AND INVESTMENTS

The Town's investment policies, which follow state statutes, require that all investments be made considering the safe and sound investment of principal and preservation of capital in the overall portfolio, maintenance of sufficient liquidity to meet day-to-day operations and other cash requirements and maximization of income, within established investment risk guidelines, with consistent cash flows throughout the budgetary cycle. These investment policies apply to all Town funds.

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Town will not be able to recover its deposits. However, the Town maintains deposits in qualifying financial institutions that are a member of the FDIC or NCUSIF as defined in Title 30-A, Section 5706 of the Maine Revised Statutes. At June 30, 2014, the Town's deposits amounting to \$8,080,587 were comprised of bank deposits of \$8,211,391. Of these bank deposits, \$8,003,884 was fully insured by federal depository insurance and consequently not exposed to custodial credit risk. The remaining bank deposits of \$207,507 were collateralized with securities held by the financial institution in the Town's name

<u>Account Type</u>	<u>Bank Balance</u>
Checking accounts	\$ 22,694
NOW accounts	9,228

Money market accounts	457,507
Savings	4,418
ICS	6,114,171
	<u>\$ 8,211,391</u>

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in possession of an outside party.

At June 30, 2014, the Town's investments of \$35,408 of certificates of deposit were fully insured by federal depository insurance and consequently were not exposed to custodial credit risk. The Town's investment of \$1,458,286 of mutual funds were either covered by Securities Investor Protection Corporation (SIPC) or fully insured.

Credit risk – Statutes for the State of Maine authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. Generally, the Town invests excess funds in cash management accounts and various insured certificates of deposit.

Interest rate risk – is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

NOTE 5 - LONG-TERM RECEIVABLE

As of July 1, 2011, the Jay school department became a member of Regional School Unit (RSU) No. 73. The RSU Plan requires that the RSU be responsible for payment of all school-related long-term debt on behalf of the Town. As of June 30, 2014, a long-term receivable has been recorded for \$2,295,996, which represents school-related general obligation bonds of \$2,295,996. The State of Maine Department of Education is responsible for paying approximately 87 percent of the debt service on general obligation bonds directly to the Maine Municipal Bond Bank. The remaining debt service for bonds is paid by the RSU.

NOTE 6 - SHORT-TERM DEBT

On February 28, 2014, the Town issued a bond anticipation note to pay the costs of designing, financing, construction, installation, equipping and replacement of a sewage transmission line and functionally related and subordinate improvements. Interest is payable at a rate of 1.14%. Maturity of the principal and interest is on November 1, 2014 or upon receipt of the proceeds from a bond issue. The balance outstanding on the note as of June 30, 2014 was \$51,292.

NOTE 12 - RISK MANAGEMENT

The Town is a member of the Maine Municipal Association – Worker Compensation Trust Fund (“Fund”). The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund’s membership, obtain lower costs for worker’s compensation coverage and develop a comprehensive loss control program. The Town pays an annual premium to the fund for its worker’s compensation coverage. The Town’s agreement with the Fund provides that the fund will be self-sustaining through member premiums and will provide, through commercial company’s reinsurance contracts, coverage for claims in excess of \$1,000,000.

The Town is also a member of the Maine Municipal Association – Property and Casualty Pool. The Town pays an annual premium for its property and liability coverage. Under the property coverage portion of the Pool, coverage is provided after the deductible is met, to \$26,000,000. Under the liability portion of the Pool, coverage is provided after the deductible is met, to \$1,000,000.

NOTE 12 - RISK MANAGEMENT (CONTINUED)

Based on the coverage provided by the insurance purchased, the Town is not aware of any material actual or potential claim liabilities which should be recorded as of June 30, 2014. There were no significant reductions in insurance coverage from that of the prior year and amounts of settlements have not exceeded insurance coverage in the past three years.

NOTE 13 - DEFINED BENEFIT PENSION PLAN

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

A. Plan Description

The Town participates in the Maine Public Employees Retirement System Consolidated Plan, a cost-sharing multiple-employer defined benefit pension plan established by the Maine State legislature. The Maine Public Employees Retirement System Consolidated Plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 5 of the Maine Revised Statutes Annotated assigns the authority to establish and amend benefit provisions to the Maine State Legislature. The Maine Public Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the Consolidated Plan. That report may be obtained by writing to Maine Public Employees Retirement System, 46 State House Station, Augusta, Maine 04333 or by calling (800) 451-9800.

B. Funding Policy

The contribution requirements of plan members and the Town are established and may be amended by the Maine State Legislature. The Town's police department employees are part of special plan "2C" with cost-of-living adjustment and are required to contribute 6.5% of their annual salary. The town manager, department heads, office workers, highway, transfer station and sewer department employees are part of regular plan "AC" and are required to contribute 6.5% of their annual salary. The Town is required to contribute 7.9% of special plan "2C" members' covered payroll and 6.5% of regular plan "AC" members' covered payroll annually to the system. The Town's contributions to the plan including employee contributions for the fiscal years ended June 30, 2014, 2013, and 2012 were \$137,382, \$138,784, and \$125,911, respectively.

NOTE 14 - DEFERRED COMPENSATION PLANS

INTERNATIONAL CITY MANAGEMENT ASSOCIATION-RETIREMENT CORPORATION

A. Plan Description

The Town contributes to a deferred compensation plan created in accordance with Internal Revenue Service Code Section 457 through the International City Management Association Retirement Corporation (ICMA-RC). The plan, available to Town employees as part of a collective bargaining agreement, Town management and professional level employees, permits them to defer a portion of their salary, in addition to Town contributions, until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseen emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) to be held in a trust for the exclusive benefit of the participants and their beneficiaries.

It is the opinion of the Town's management that the Town has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor.

B. Funding Policy

The contribution requirements of plan members and the Town are established and may be amended by the Town's Board of Select Board. The Town will contribute 1% of annual salary for professional level employees that participate in the Town's defined benefit plan. For professional employees that choose to participate in the 457 plan alone, the Town will contribute an amount equal to the required employer contribution for the defined benefit plan plus 1.00%. For the Town's office workers, highway and police department employees that choose not to join the Town's defined benefit plan, the Town will contribute an amount up to 5.3% of their annual salary.

The Town's contributions to the plan including employee contributions for 2014, 2013, and 2012 were \$90,947, \$98,470, and \$101,199, respectively. These amounts include loans.

B. Funding Policy

The contribution requirements of plan members and the Town are established and may be amended by the Town's Board of Selectmen. The Town will contribute 1% of annual salary for professional level employees that participate in the Town's defined benefit plan. For professional employees that choose to participate in the 457 plan alone, the Town will contribute an amount equal to the required employer contribution for the defined benefit plan plus 1.00%. For the Town's office workers, highway and police department employees that choose not to join the Town's defined benefit plan, the Town will contribute an amount up to 5.3% of their annual salary. The employee's and the Town's matching contribution vests 100% with the employee when contributed.

The Town's contributions to the plan including employee contributions for 2014, 2013, and 2012 were \$1,426, \$1,557, and \$1,476, respectively.

NOTE 15 - LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

The Town of Jay's landfill is at 100% capacity to date. Therefore, the estimated remaining landfill life is zero years. Federal and state laws require that certain post closure care be met. The Town estimates that on an annual basis, some immaterial costs will be incurred for post closure care. The annual amount will be paid for within the Town's annual operating budget.

NOTE 16 - OVERSPENT APPROPRIATIONS

The following appropriations were exceeded by actual expenditures at June 30, 2014:

General assistance	\$ 1,817
	<u>\$ 1,817</u>

NOTE 17 - CONTINGENCIES

With regard to litigation, the Town has brought a claim in arbitration against a party for failure to pay expenses related to a current cost-sharing agreement for a jointly funded municipal facility. The party has brought a counterclaim against the Town alleging the Town's culpability in the matter. In the opinion of Legal Counsel for the Town, the likely outcome is that the Town's claim will prevail, yet a final outcome is unknown at this time. Management believes, however, that a settlement amount, if any, will not have a material adverse effect on the Town's financial position.

With regard to unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the Town's financial position.

The Town participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the Town's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 18 - JOINT VENTURES

The Town is a member of a joint venture with the Town of Livermore Falls, Maine for the purpose of constructing, operating, and maintaining sewerage treatment facilities. Together, both towns are obligated by contract to fund a reserve account in an amount up to \$100,000 to cover the cost of major repairs or replacements at the facilities. As of the fiscal year ended June 30, 2013, the most recent information available, the balance in the reserve account was \$99,662. Operating, maintenance, and administrative costs for the sewerage treatment plant and disposal facilities are prorated between the towns based on metered volume of flow.

Summarized financial information for the joint venture as of and for the year ended June 30, 2013 is as follows:

Total Assets	\$ 5,797,057
Total Fund Balance	\$ 5,776,011
Total Expenses (net of depreciation on assets purchased with contributed capital)	\$ 397,717
Operating Income (Loss)	\$ (65,327)

The Town of Jay accounts for its investment in the joint venture using the equity method. The equity method requires the original investment to be recorded at cost. Subsequently, the carrying amount of the investment is adjusted for the investee's proportionate share of the joint venture income/loss. The Town's share of capital cost was agreed to be 49% of the joint venture. Operating income/losses have been allocated based on the capital contribution ratio. The joint venture's audited financial statements are available at Livermore Falls-Jay Sewerage Treatment Plant, 2 Main Street, Livermore Falls, Maine 04254 or at the Jay, Maine Town Office.

NOTE 19 - DEFICIT FUND BALANCES

At June 30, 2014, the Town had the following funds showing deficit fund balances:

Paving Reserve	\$ 74,351
EAP Program	30
	<u>\$ 74,381</u>

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 20 - RELATED PARTY TRANSACTIONS

One of the Town's Selectmen owns businesses that provide the following to the Town: welding and food services. In addition, another of the Town's Selectmen is a vendor that is wood harvesting for the Town. In each instance, we believe the Selectmen recuse themselves in any matters concerning the related parties. During the fiscal year ended June 30, 2014, payments to these vendors for welding, food services and automotive parts totaled \$8,432, \$8,427, \$343, respectively.

NOTE 21 - OVERLAPPING DEBT

The Town is responsible for its proportionate share of County and School District debt. As of June 30, 2014, the Town's share was as follows:

	Outstanding Debt	Town's Percentage	Total Share
RSU No. 73	\$ 5,879,829	71.62%	\$ 4,211,134
Franklin County	566,048	21.48%	121,587
			<u>\$ 4,332,721</u>
